Profile

I am a junior Information Systems undergraduate with concentrations in Cyber Security, Linux, and Data Analytics. Having successfully completed co-op training at King Abdulaziz University Hospital—where I provided IT support, managed VIDA systems, and maintained network domain security—I am now pursuing a cybersecurity internship to apply and deepen my hands-on experience in real-world environments.

Education

King Abdulaziz University *Sept 2020 – May 2026*
BSc in Computer Information Systems

- **Coursework:** Information security, Computer Networks, Database, Web development, Computer Architecture, Comparison of Learning Algorithms, Computational Theory
